Hello friends of Florida Ski Adventures,

Finally, after many years of trying, we are going to Telluride, Colorado! Telluride has been voted the #1 spot by Condé Nast Travelers 2013 best North American ski resort for 2 years in a row. At 8,750 ft., it sits high in SW Colorado's San Juan Mountains. It was a former silver mining camp but named for the gold minerals when gold was found in 1875. The town has a characteristic Victorian architecture and has been designated as a National Historic District. World-class restaurants and shops cover a town measuring one mile east to west, so everything is within walking distance. The complimentary Galloping Goose shuttle loops through town all day. The free gondola connects Telluride to Mountain Village, which was incorporated in 1995. This is a newer resort community; it includes restaurants and shops. No traffic or long lines – not even a traffic light in town.

Each room perfectly integrates with Telluride, offering views of the mountains or the village. The wonders of Colorado are literally steps away, while picture-perfect memories await. The rooms with king-size beds are 510 sq. ft., and the double-queen rooms are 550 sq. ft. Both are richly appointed with the finest of handpicked furnishings and ultra-luxury finishes. Each room features beds with a Euro-flex custom pillow top mattress, 450 thread count Pratesi linens, hypoallergenic down-feather pillows, Pratesi terry cloth robes and slippers, a LCD – TV, CD/DVD player, iPod docking station, wireless internet access, and refreshment center. Each luxurious bathroom includes a handsome granite double vanity, a separate soaking tub and shower, and a private water closet.

Once in Telluride, you have no need for a car. The town of Telluride and Mt. Village are small, pedestrian-oriented communities. The two towns are connected by the convenient Gondola System, which is free public transportation and runs from 7:00 AM until midnight. Every 30 seconds, an 8-passenger gondola comes along to whisk you from one location to the other.
